## PATHFINDER 35 DRILLING UPDATE

Castile Resources Limited (**ASX:CST**) (**Castile** or the **Company**) wishes to provide an update on the planned drilling on its co-funded hole at Pathfinder 35.

As previously advised the Company was planning to mobilise the rig to site and drill the new defined IOCG target at Pathfinder 35 this week.

Unexpected rain has halted the ability to mobilise to the site and forecasts have changed to include more rain in the coming weeks. Due to the potential to strand the rig if these storms occur, the Company has decided to cancel the drilling until after the wet season and anticipates being back on the ground as soon as possible in early 2024.

Authorised for release by the Board of Castile Resources Limited.
